

I urge FCC Commissioners to promote protection of media diversity by refusing to lift controls on the numbers of media which can be owned by one party. It is crucial at this time to retain a structure which can support of local communities and our opportunity to know the voices that are heard in our own communities. Please do not further undermine the dialogue that is so needed for democracy to flourish by allowing the biggest sharks to take all. We are depending on some of you public servants to respect the needs of people without money and power. Thank you
